Fontainavie New Generation Beauty Detox

- Information Guide for FM World USA Business Partners

Fontainavie New Generation Beauty Detox is a premium dietary supplement designed to support the body's natural detoxification processes while providing numerous health benefits. It combines powerful ingredients that work synergistically to enhance the performance of key detox organs, improve skin health, and boost overall vitality.

Ingredients and Their Descriptions

Bladderwrack (Thallus) Extract (also called Kelp):

Contains iodine which can help support thyroid function. Iodine is crucial for the production of thyroid hormones, which regulate metabolism, energy levels, and overall metabolic rate. This extract also provides essential micronutrients that support immune system functioning and has anti-inflammatory properties. Additionally, iodine contributes to maintaining skin health and may support cognitive function.

Chlorella:

Rich in micronutrients (potassium, iron, calcium, magnesium, zinc) and vitamins (A, C, E, K1, B complex), helps improve performance, delay fatigue, reduce inflammation, and minimize swelling. Aids in detoxification by binding to heavy metals and other toxins, facilitating their removal from the body.

Hyaluronic Acid:

Hydrates skin, provides elasticity, and reduces wrinkles.

Spirulina:

Controls hunger, provides essential antioxidants, improves vitality, and reduces fatigue.

Hydrolysed Collagen:

Supports joint health, skin firmness, and has excellent absorption.

Vitamin C:

Contributes to normal skin functioning and promotes natural collagen production.

Benefit

- Facilitates removal of heavy metals and toxins.
- Boosts immune system and enhances liver detoxification.
- Supports thyroid health and metabolism.
- Regulates metabolic rate and energy levels.
- Reduces the feeling of fatigue.
- Helps support a proper body weight.
- Provides essential antioxidants and controls hunger.
- Enhances skin hydration and elasticity.
- Supports the production of collagen and promotes skin elasticity.
- Maintains digestive tract integrity and supports nutrient absorption.

Best For

- People needing support for overall metabolic regulation.
- Individuals seeking to support thyroid health and metabolic function.
- Those aiming to support their body's natural detoxification process.
- People looking to support immune system function and reduce inflammation.
- Individuals interested in weight management.
- Those seeking to improve performance and delay fatigue.
- People wanting to boost their overall vitality and energy levels.
- Individuals interested in skincare and reducing wrinkles.
- Those looking to enhance cognitive function and maintain energy levels.

Contraindications

- Not recommended for pregnant or breastfeeding women.
- Not suitable for persons under the age of 18.
- Avoid if hypersensitive to any product ingredients.
- Individuals with thyroid conditions or those who are sensitive to iodine should consult a health-care professional before use.
- People with known allergies to fish or seafood should avoid this product due to the presence of hydrolysed collagen from Atlantic Cod.

Supplement Facts

Serving Size: 2 Capsules

Amount Per Serving:

- Vitamin C (from Rosehip Extract): 40 mg (44% Daily Value)
- Iodine (from Bladderwrack (Thallus) Extract): 75 mcg (50% Daily Value)
- Spirulina Powder: 1000 mg (Daily Value not established)
- Chlorella Powder: 50 mg (Daily Value not established)
- Hyaluronic Acid (low molecular weight): 20 mg (Daily Value not established)
- Collagen (from Atlantic Cod) (Seagarden®): 5 mg (Daily Value not established)

Ingredients: Spirulina Powder, Bovine Gelatin (capsule), Rosehip Extract (standardized to 70% Vitamin C), Chlorella Powder, Bladderwrack (Thallus) Extract (standardized to 0.2% Iodine), Hyaluronic Acid (low molecular weight), Collagen (from Atlantic Cod) (Seagarden®).

Allergy Warning: Contains Fish.

Additional Information

- Dietary supplements should not replace a varied diet.
- A healthy lifestyle and balanced diet are recommended.
- Consult a healthcare professional before starting any new supplement, especially if you have preexisting health conditions or are taking medication.

Prospecting Questions for Potential Customers

1. Are you looking for ways to support your body's natural detoxification process?

Purpose: This question helps identify if the customer is aware of and interested in enhancing their body's detoxification capabilities. By understanding their interest in detoxification, sellers can highlight how Fontainavie Beauty Detox supports key detox organs (refer to knowledge Helper).

2. Do you experience fatigue and are looking for a supplement to help improve your energy levels?

Purpose: This question aims to discover if the customer struggles with fatigue. By addressing their energy levels, sellers can point out the benefits of Chlorella and Spirulina in improving performance and vitality.

3. Are you interested in reducing inflammation and boosting your immune system?

Purpose: This question gauges the customer's concern about inflammation and immune health. Sellers can then explain the anti-inflammatory properties of Kelp Extract and Chlorella, and the immune-boosting benefits of Vitamin C.

4. Do you want to improve your skin's health and reduce signs of aging such as wrinkles?

Purpose: This question identifies if the customer is focused on skincare and anti-aging benefits. Sellers can then emphasize the role of Hyaluronic Acid and Hydrolysed Collagen in hydrating the skin, providing elasticity, and reducing wrinkles.

5. Are you looking for a supplement to help with weight management and reducing fat absorption?

Purpose: This question assesses if the customer is interested in weight management solutions. Sellers can highlight how Kelp Extract reduces carbohydrate and fat absorption, aiding in weight management and supporting the liver.

By asking these questions, sellers can effectively understand the specific needs and concerns of potential customers and tailor their explanation of Fontainavie Beauty Detox's benefits to match those needs.

Knowledge Helper

Understanding How Fontainavie Beauty Detox Supports Your Body's Detoxification System

To better understand how Fontainavie Beauty Detox can help detoxify your body, it is crucial to have knowledge of the detox organs and their role in our health.

Our bodies have a natural detoxification system composed of several key organs, each playing a crucial role in filtering and eliminating toxins:

- **Liver:** The liver is the primary detox organ. It processes toxins, breaking them down into less harmful substances that can be excreted from the body. It also metabolizes fats, proteins, and carbohydrates, and stores essential nutrients.
- **Kidneys:** The kidneys filter blood to remove waste products and excess substances, which are then excreted as urine. They also help maintain fluid and electrolyte balance.
- **Lungs:** The lungs expel carbon dioxide, a byproduct of metabolism, and filter out small particles and pollutants from the air we breathe.
- **Skin:** As the body's largest organ, the skin helps eliminate toxins through sweat. It also acts as a barrier to external pollutants.
- **Digestive Tract:** The intestines and colon play a key role in removing waste products from the body and absorbing nutrients from the food we eat.

How Fontainavie Beauty Detox Supports Detox Organs

Fontainavie Beauty Detox is designed to enhance and support the natural functions of these detox organs, ensuring they operate at peak efficiency:

Bladderwrack (Thallus) Extract (also called Kelp):

Reduces the absorption of carbohydrates and fat, lightening the liver's load, allowing it to focus on detoxification. Its micronutrients support the immune system, closely linked to detox processes.

Chlorella:

Binds to heavy metals and other toxins, facilitating their removal. Its anti-inflammatory properties support the kidneys and liver.

Hyaluronic Acid:

While primarily known for skin health, hyaluronic acid also supports hydration, which is crucial for kidney function and overall detoxification.

Spirulina:

Provides antioxidants that protect the liver and other detox organs from oxidative stress and helps control hunger.

Hydrolysed Collagen:

Supports the integrity of the digestive tract lining, ensuring efficient waste removal and nutrient absorption.

Vitamin C:

A powerful antioxidant, Vitamin C supports the immune system and enhances liver function by promoting the natural production of glutathione, a key detox molecule.
